Principales publications

1. Embedding problems in symplectic geometry.
De Gruyter Expositions in Mathematics.
Walter de Gruyter Verlag, Berlin, 2005.

2. (avec Urs Frauenfelder) Volume growth in the component of the Dehn--Seidel twist.
Geom. Funct. Anal. 15 (2005) 809--838.

3. Applications of Hofer's geometry to Hamiltonian dynamics.
Comment. Math. Helv. 81 (2006) 105--121.

4. (avec Urs Frauenfelder)
Hamiltonian dynamics on convex symplectic manifolds.
Israel J. Math. 159 (2007) 1--56.

5. (avec Dusa McDuff)
The embedding capacity of 4-dimensional symplectic ellipsoids.
Annals of Mathematics, 2012.
